

Carburetor and Choke Cleaner
DRAGON FIRE™

TECHNICAL DATA SHEET
www.CastleProductsOnline.com

DESCRIPTION	DRAGON FIRE™ Carburetor and Choke Cleaner is a unique formulation of solvents and lubricants that eliminates the two steps of cleaning, then lubricating. Designed to remove gums and varnish while lubricating parts in one efficient step and with only one product. Dragon Fire™ contains "Resi-Lube", a chemical that lubricates all moving parts and helps to eliminate moisture between applications. It is completely harmless to all oxygen sensor devices. Extension tube included. Excellent for moving varnish from Transmissions.	
USES:	*Carburetor * Linkage *To Free-up Heat Riser *Choke *PCV System *Small Parts Cleaner
